

Special Collections

Annually special collection appeals may be authorized by the Bishop. Each year parishes will receive a notice from the Diocese of the special collections for the upcoming year.

Special collection envelopes are to be used for special collections. All money in those envelopes should be counted as part of that special collection.

Any parish may choose to make a donation in place of having a second collection as long as parishioners are informed of the purpose of the collection.

All proceeds and/or parish donations for each special collection should be forwarded to the Diocese no later than 30 days following the collection date.

Special collections are **not** subject to the diocesan parish assessment.
